OVERVIEW

Property Value

County assessors value all taxable real property and personal property which are collectively referred to as locally assessed property. The Property Tax Division of the State Tax Commission values utilities, mines and railroads, which are collectively referred to as centrally assessed property. As of 2023, the State Tax Commission no longer assesses property owned by a telecommunications service provider. See 2022 SB 20. Real property owned by a telecommunication service provider will be assessed according to 59-2-306 and personal property according to 59-2-306.5.

All taxable property in Utah is valued at 100 percent of its fair market value, based upon its location and status as of January 1st of each year.

Fair market value less any exemptions equals taxable value¹. Taxable value is the value against which the tax rate is applied to compute taxes charged.

Currently, primary residential properties receive a 45% exemption². Primary residential property is any dwelling used as a person's primary residence, including condominiums, apartments and rental property, and includes up to one acre of land. The taxable value of all other properties, except some agricultural land³, is assessed at 100% of fair market value.

Utah motor vehicles are charged a fee-in-lieu of property taxes which is identified throughout this report as "fee-in-lieu."

This report addresses taxable value. The relationship of taxable value to fair market value is illustrated in the table below.

	FMV	Taxable Value
Primary Residential	100%	55%
All Other Locally Assessed Real	100%	100%
Personal Property (except Manufactured Homes as Prim. Res.)	100%	100%
Personal Property (Manufactured Homes as Prim. Res.)	100%	55%
Centrally Assessed Property	100%	100%
Motor Vehicle Age Based and Value Based Fee-in-Lieu ⁴	-	-
FAA (Farmland Assessment Act)	100%	Varies based on production value

¹ Fair market value means the amount at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or sell and both having reasonable knowledge of the relevant facts.

²See Utah Code Annotated Section 59-2-103.

³See Utah Code Annotated Section 59-2-501 through 516.

⁴Age based fees are not based on market value. Numbers in this report are converted to an estimated market value. This value per Administrative Rule R884-24P-60(M) is calculated by dividing aged based revenues by 0.015.

Property Taxes

Tax rates are expressed as a percentage of taxable value. Rates are set under a process known as "Truth in Taxation"¹, which requires public notice and hearings in the event a taxing entity plans to increase its property tax revenues above the previous year's revenue, exclusive of revenue from new growth.

The following table summarizes statewide taxable value and statewide market value by class of property.

Tax Relief

Tax relief is administered by county governments. About 25% of tax relief is state funded through the "Circuit Breaker" Program. County governments fund tax relief for the active duty, veterans with a disability, blind and indigent. Also, a portion of the Circuit Breaker Program is funded by county government.

The following table summarizes the number of recipients in each property tax relief category.

¹Utah assesses a fee on most motor vehicles, boats, off-road vehicles etc. rather than a value-based property tax. This fee is based upon the age of the vehicle as well as other characteristics such as length in the case of boats. Because motor vehicles are assessed as a fee, a value is calculated by taking the amount of fees collected and dividing that amount by .015. See Rule R884-24P-60M.
